Serving Size: 3 drops
Servings Per Container: 100

	Amount Per Serving	% Daily Value*
NCD Zeolite™	24mg	†

*Percent Daily Values are based on a 2000-calorie diet.
†Daily Value not established.

Other ingredients: Water

Cellular Defense and More.

Many years ago, volcanoes erupted and poured lava into the sea. The combination of lava, ash and salt from the sea caused a chemical reaction, and over thousands of years zeolites began to form in the hardened lava. Throughout Asia, powdered forms of specific zeolites have been used for centuries as traditional remedies to promote overall health and well being.

The zeolite's honeycomb-like framework of cavities and channels (like cages) works at the cellular level attracting heavy metals and toxins. In fact, because it is one of the few negatively charged minerals in nature, zeolites act as magnets drawing toxins to it, capturing them in its cage, removing them safely and naturally from the body.*

An Expert's Advice

"One of the greatest benefits of **Natural Cellular Defense** is its ability to rid your body of toxins—the same toxins the EPA, FDA and CDC have declared dangerous. Eliminating these toxins not only helps strengthen your systems and bolster your health, it can help save your life." —*Rik D., Biochemist., Fla.*

What is the patent?

Waiora's Natural Cellular Defense is protected by U.S. Patent No. 6,288,045 entitled *Epithelial Cell Cancer Drug*.

What are epithelial cells?

Epithelial cells are skin tissues that cover and line the body. They cover all the body's organs (throat, lung, heart, breast, prostate, kidneys, liver, ovaries and colon) and line the body's cavities (including the inside of the chest and abdominal cavity).

Cancers of the epithelial cells are called "carcinomas" and make up about 85 percent of all cancers.

Testimonial

"I have been battling shingles for the last 33 years. About a month before I started taking Waiora's **Natural Cellular Defense** I had a very painful and severe outbreak. Three days after I started taking the product, all the symptoms disappeared!" † —*Linda B., Colo.*
