balance harmony

evoking scents

Smells are such an intricate player in day to day life. They tell a story, they evoke emotion...

Have you ever noticed how the smell of a wood fire makes you feel like you're at home on a chilly winter's evening. The scent of cinnamon and spice creates the feeling of grandma's kitchen after she's just been baking. A citrus grapefruit brings you the remembrance of a cool breeze on a hot summer day. Smells can enliven the senses and bring everyday experiences to new levels.
